## **Appendix – Markings, User Instructions and Declaration of Conformity for Personal computer and computer peripheral**

The product is classified as a Class B personal computers and peripherals for which the following markings, instructions and Declaration of Conformity are required:

**(Note: The detail information may only refer to FCC standard)**

### **1. Markings**

The product shall be labelled with the following **FCC logo** together with the **trade name** and **model number**:

**Note:**

*The label on the products shall be permanently affixed to the product and shall be readily visible to the purchaser at the time of purchase. "Permanently affixed" means that the label is etched, engraved, stamped, silkscreened, indelibly printed, or otherwise permanently marked on a permanently attached part of the equipment or on a nameplate of metal, plastic, or other material fastened to the equipment by welding, riveting, or a permanent adhesive. The label must be designed to last the expected lifetime of the equipment in the environment in which the equipment may be operated and must not be readily detachable.*

## **2. User Manual and User Information:**

### **2.1 INSTRUCTIONS**

The following information shall be provided to the users:

- (a) Where special accessories, such as shielded cables and/or special connectors, are required to comply with the emission limits, the equipment must be marketed with, i.e., shipped and sold with, those special accessories. The instruction manual shall include appropriate instructions on the first page of the text describing the installation of the device.
- (b) *“CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the product.”*
- (c) *“NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:*
  - *Reorient or relocate the receiving antenna.*
  - *Increase the separation between the equipment and receiver.*
  - *Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
  - *Consult the dealer or an experienced radio/TV technician for help.”*

### **2.2 DECLARATION OF CONFORMITY**

The product shall be supplied with a **compliance information statement** at the time of marketing or importation, containing the following information:

- (a) **Identification of the product:** Product name and model number;
- (b) **Compliance statement:**  
*“This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”*
- (c) **US responsible party:** by name, addresses and telephone number, of the responsible party located within the United States.
