

Absoluta Plus Control Panel

Hybrid Intrusion Security Solution with PowerG Wireless Technology

Absoluta Plus combines the field-proven reliability and flexibility of Absoluta control panels with market-leading PowerG wireless security technology. Available as a fully wired system, or as a hybrid solution with the widest range of wireless peripherals, Absoluta Plus opens new opportunities for installers in both residential and commercial markets. Rooted in Italian quality and design, this new solution is a major step forward in the evolution of the Absoluta platform, built with the same passion for the finer details valued by today's demanding customers.

Simple Yet Powerful User Interfaces

- Up to 16 touchscreen keypads for user-friendly operation
- Up to 32 proximity readers for tags and keys (up to 250) for system operation with no need to remember PINs
- Up to 16 LCD keypads for user and installer operation

Complete System Remote Control

- Voice menu for controlling the panel remotely
- "Talk and listen" remotely using the AS100 accessory
- SMS remote control: arm, disarm, activate outputs remotely using SMS*
- End-user app (iOS and Android) for remote control of the panel***

New Home Automation Capabilities

- Powerful event-action engine to drive actions (output, call, SMS*, emails**) for every event registered in the panel
- Up to 50 fully programmable outputs: polarity, timing, oscillation and event triggers
- All input zones in the panel can be used for controlling home automation features
- Powerful scheduler to define up to 8 automatic arming/disarming sequences per day for each partition
- 20 different timers with 8 activations per day

Comprehensive Communication Options

- Voice communicator with messages for each event/zone and fully customizable library of audio messages
- Digital communicator supporting CID and SIA on PSTN and GSM*
- GPRS*/IP** communication with Sur-Gard receivers
- 32-number phone book with black and white list
- SMS* or email** available for each event

360° Programming

- Powerful Bentel Operating Security Software (BOSS) for full programming of the panel
- BOSS local connection with USB port or remotely on GPRS* or IP** channels
- Option to load the programming using a USB stick
- Keypad programming for basic operations

And Much More...

- EN Grade 2/EN Grade 3 certification
- Up to 128 zones with logical assignment to the physical zones
- Full partition management (up to 16)
- Event logger for up to 2000 events
- 9 languages available on the panel
- USB firmware upgrade

* Available with ABS-GSM optional board

** Available with ABS-IP optional board

*** Requires ABS-IP or ABS-GSM optional boards

KEYPADS AND MANAGEMENT DEVICES

ABSOLUTA PLUS
HYBRID CONTROL PANEL
UP TO 128 ZONES
ABS 18, ABS 48, ABS 128

Integrated proximity reader for keys, cards and tags; 3 on-board I/O terminals; supports roller blind detectors
ABSOLUTA T-BLACK & T-WHITE

Two-line LCD control keypad, with 3 status LEDs
CLASSIKA LCD

Two-line LCD control keypad with proximity reader and 3 programmable I/O terminals
PREMIUM LCD

7" color touchscreen keypad with an extremely intuitive menu for users and installers
M-TOUCH

Proximity key/card reader for indoor/outdoor use (IP34)
*Proximity card
PROXI2 & PROXI-CARD

60 x 30 mm proximity tag, available in white, grey and black
PROXI-TAG

Flush-mounted proximity reader (available in various formats to be used in conjunction with most currently available plates)
*Proximity key
ECLIPSE & SAT

50 x 30 mm proximity tag
MINI-PROXY

SIGNALING DEVICES

Siren for indoors; available in self-powered and strobe versions
WAVE

Outdoor Self-powered Siren
NEKA

OPTIONAL BOARDS

GSM/GPRS/SMS Communication Board for Absoluta Plus control panels
ABS-GSM

TCP/IP Communication Board
ABS-IP

WiFi Bridge for ABS-IP board
ABS-VAP11G

POWER SUPPLIES

Microprocessor-Controlled Power Station
BXM-12

SOFTWARE (WINDOWS)

Bentel software management system
BENTEL OPERATING SECURITY SOFTWARE (BOSS)

CONTROL PANEL ACCESSORIES

Module with 6 programmable IN/OUT terminals
M-IN/OUT

Isolator Module
B-ISOL

AUDIO MODULE

Standalone Audio Module

PowerG – The power of wires, without the wires

Cut out the wires and plug in peace of mind with PowerG, the leading wireless security technology for today's homes and businesses.

PowerG offers all the benefits of traditional wired security, without the hassles and vulnerabilities of wires. It makes end users' lives more secure and convenient, and your work more profitable.

Ultra-reliable, two-way 128-bit AES encrypted communication, and iron-clad protection that blocks interference, deliver unparalleled cyber protection – ensuring reliable performance with minimum false alarms.

Long-range wireless transmission enables easy and quick wire-free and repeater-free installations; and adaptive transmission stretches time between battery changes. Multichannel, Frequency Hopping Spread Spectrum technology overcomes frequency blocking and interference.

Additionally, with the most extensive set of indoor and outdoor wireless peripherals, PowerG enables the widest range of residential and commercial applications.

Johnson Controls

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat.
