

# FE550

**Retenedor electromagnético de 490N para montaje en suelo/pared con pulsador de desbloqueo.**

## General

---

The FE550 is a VDS approved door holder in a reinforced plastic box.

## A magnet for all occasions

---

These door holding magnets are the result of years of specialised development. Rated at just 1.5 W @ 24VDC, these powerful magnets pack a holding power of 490 N. All magnets have a spring-loaded pin to ensure ejection against remnant magnetism.

## Application friendly

---

The reinforced plastic box model offers a cost effective solution without sacrificing performance. The FE550 is supplied without a keeper plate. This may be ordered separately depending on the application.

## Installer friendly

---

For practical ease of installation, all units are complete with electrical termination. Protection diodes prevent electromagnetic pulses, and reverse polarity protection speeds up installation. The boxes are predrilled in a practical, standard format for rapid mounting.

## Approvals

---

All models are Vds approved. (Refer to the device specification)

## Details

---

- Complete range for wall and surface mount
- Low power - 1.5 W
- 490 N holding power on VDS coils
- 100% duty cycle
- Anti-remnant ejector
- Protection diode and reverse polarity protection
- Release button
- Vds approved (see specification)

# FE550

Retenedor electromagnético de 490N para montaje en suelo/pared con pulsador de desbloqueo.

## Technical specifications

---

### General

---

Fuerza de retención N (Newtons) 490

---

Botón de liberación Si

---

Protección contra inversión de polaridad Yes (diode)

---

### Eléctrico

---

Tipo de fuente de alimentación 24 VCC

---

Consumo de corriente 1.5 W

---

Ciclo de trabajo 100%

---

### Físico

---

Dimensiones físicas 121 x 86 x 120 mm

---

### Medioambiental

---

Clasificación IP IP65 (magnet)  
IP20 (connection)

---

### Regulatory

---

Normativas EN1155

---
