# IFAMFFT

Emergency telephone management module for Previdia Ultravox control panels

Module for the management of emergency telephones, provides 4 lines for connecting emergency telephones up to a maximum of 64 telephones for each line.

By picking up one of the telephones connected to the lines, the request for a conversation is notified on the FPAMIAS front panel and the call can be accepted by via the display. IT is possible to create a chat with up to 5 incoming calls.

Each control panel manages up to 4 IFAMFFT modules.

MAIN FEATURES

- It can be plugged into the CAN DRIVE+ bar of Previdia Ultra cabinets
- Manages up to 4 emergency telephone lines
- Up to 64 emergency telephones in parallel for each line
- Maximum 4 IFAMFFT modules per control panel for a maximum of 16 emergency telephone lines
- Line connection via twisted pair cable with a maximum length of 500m
