

Emergency Stop Manual Call Point

- Non-latching push button
- IP40 Protection

SensoMAG MHB50 is a manual call point for emergency stopping, or temporary holding and delaying the extinguishing process, providing extra time for evacuation of the protected area. The call point is designed to work with extinguishing fire control panels and it is suitable for surface indoor mounting. The pressing of a non-latching push button provides the delaying of the extinguishing process on the protected area with a time programmed in advance in the control panel. SensoMAG MHB50 is equipped with a transparent protective cover which helps for minimizing the unwanted activation of the call point.

Features

- Non-latching push button
- IP40 Protection
- ABS Plastic material

Technical Specifications

Operating Voltage Range	9 - 30VDC
Series resistor	N.A
Wire gauge for terminals	0.4mm ² – 2.0mm ²
Relative humidity resistance	(93 ± 3)% @ 40°C
Operation temperature	-10°C - +60°C
Weight	173g
Dimensions	
-with cover	94x60x92mm
-without cover	90x57x90mm
