

SATA8000SV35

HDD SATA 8TB Seagate SKYHAWK Especial CCTV. Precio rebajado al comprar 10 unidades

Características

Hard disk drive optimized for video surveillance. Designed for workloads of 180 TB per year, triple that of desktop units. Low power consumption and starting current to minimize heat emissions and vibrations, which improves the reliability of the unit in the long term. Components resistant to deterioration to help protect the unit from weather conditions, which increases reliability on the ground. Reliable performance in multi-unit systems with stabilization using VG sensors.

*Precio rebajado al comprar 10 unidades.
