

Rate-of-rise heat detector IQ8Quad with isolator

Part-No.: 802271 Approval: VdS, BOSEC

Automatic heat detector with a single thermistor to sense the air temperature around the detector. Fast semiconductor sensor guarantees reliable detection of fires with rapidly rising temperatures and integrated fixed temperature function for the detection of fires with slowly rising temperatures. Ideal for sensing in environments that are dirty or smoky under normal conditions, as well it is unaffected by wind or atmospheric pressure. Intelligent fire detector with decentralized intelligence, automatic function self-test, CPU failure mode, alarm and operating data memory, alarm indicator, soft-addressing and operating indication.

The detector is provided with an integrated isolator. A remote indicator can be connected.

Common technical data

Operating voltage $8 \dots 42 \text{ V DC}$ Quiescent current @ 19 V DC $40 \text{ }\mu\text{A}$ Quiescent current @ FACP battery approx. 220 μA Alarm current w/o communication curtain 18 mAArea to be monitored 30 m^2 Height to be monitored 7,5 m

Air velocity 0 m/s ... 25,4 m/s Application temperature -20 °C ... 50 °C Storage temperature -25 °C ... 75 °C Air humidity < 95 %

Type of protection IP 40 with base, up to IP 43 with base and option

Material ABS plastic

Color white, similar to RAL 9010

Weight approx. 110 g
Detector specification EN 54-5 A1R / -17:2005

Dimensions (C) 447 ---- 11, 40 ---- (C) ---- in al

Dimensions Ø: 117 mm H: 49 mm (62 mm incl. base)

Declaration of Performance DoP-20103130701

Special marking for heat detector on the light pipe: black ring.

Accessories:

767800 Mounting bracket
