

# FE570

## Retenedor electromagnético de 490N con tubo regulable general con pulsador de desbloqueo.

### General

---

The FE570 is a universal, adjustable door-magnet.

### A magnet for all occasions

---

The FE500 series door holding magnets are the result of years of specialised development. Rated at just 1.5 W @ 24VDC, these powerful magnets pack a holding power of 490N. All magnets have a spring-loaded pin to ensure ejection against remnant magnetism.

### Application friendly

---

The FE500 series offer cost effective solutions without sacrificing performance. Reinforced aluminium gives it a smart look and rugged endurance, whilst the reinforced wall mount aluminium extensions allow covering of installation between the door and the wall. Keeper plates are not supplied with the magnet and can be ordered separately according to the application.

### Installer friendly

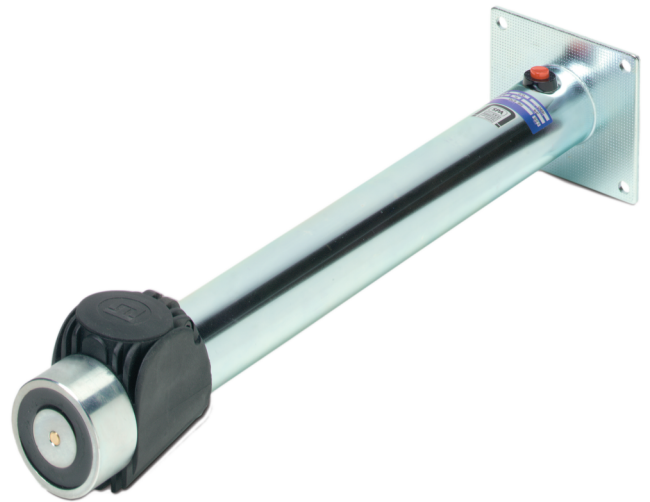

---

For practical ease of installation, all units are complete with electrical terminations. Protection diodes prevent electromagnetic pulses and provide reverse polarity protection, as well as speeds up installation. The mountings are predrilled in a practical, standard format for rapid mounting.

### Approvals

---

All models are VdS approved.

### Detalles

---

- Strong body
- Floor mounting
- 490N holding force
- Push-off pin
- No remanent magnetism
- Low power - 1.5 W
- Reverse polarity protection
- VDS approval

# FE570

Retenedor electromagnético de 490N con tubo regulable general con pulsador de desbloqueo.

## Especificaciones técnicas

### General

Fuerza de retención N 490  
(Newtons)

Botón de liberación Si

Protección contra inversión de polaridad Yes (diode)

### Eléctrico

Tipo de fuente de alimentación 24 VCC

Consumo de corriente 1.5 W

Consumo de corriente 62.5 mA

### Físico

Dimensiones físicas 90 x 80 mm (mounting plate)  
475 mm (wall mounting length)  
450 mm (floor and ceiling mounting length)

Entradas de cable -

### Medioambiental

Clasificación IP IP42

### VDS Coil

Yes

### Productos compatibles

Categoría	Referencia	Descripción
Retenedores	FE527	Base cuadrada estándar de acero. Dimensiones: 55x18mm.
Retenedores	FE529	Base cuadrada estándar de acero. Eslabón giratorio de 120 grados. Dimensiones: 55x50mm.
