

# VTM119

## VTM119+Surface Mounted Box

- Material: AL5052
- Dimensions: 150.2mm×411.3mm×127.0mm (5.91"×6.19"×5.00")

### Installation

**Step1** Drill holes in the wall according to holes on the surface mount box, and then put expansion tube in the holes.

**Step2** Fix the surface mount box on the wall with ST4×25 screws.

**Step3** Install M3×6 screws on the top of the surface mount box to prevent water leakage.

**Step4** Thread the cable through the bracket, and then connect the cables to cables on the wall.

**Step5** Fix the bracket on the surface mount box with M3×6 screws.

**Step6** Fix the outdoor station (VTO) on the bracket with M3×16 screws.

**Step7** Apply sealant to gaps between the surface mount box and the wall.

### Dimensions (mm[inch])
