

# KE-DBA-ADPW-KIL

## Intelligent addressable base accessory - Kilsen adapter (White)

### General

---

The KE-DBA-ADPW-KIL is an Excellence series base adapter. It allows easy migration from a legacy Kilsen KL7A series installation by offering the possibility to keep the legacy standard base installation intact, but convert to the new Excellence series intelligent detectors.

### Standard Base

---

The adapter base is designed to enable the new Excellence series detectors to be plugged in without any need for force - particularly useful when fitting to suspended ceilings. To make it even easier, the base has a "one way only" fit.

The adapter base contains no electronic parts that could be damaged during installation. It automatically locks into the legacy standard base just like fitting a detector. The adapter also supports the option to lock the Excellence series detector in place to avoid unauthorised detector removal.

As with all Excellence series standard bases, the Excellence series base adapter supports Excellence series address tags for neat product identification labeling.

### Details

---

- Allows the reuse of legacy Kilsen KZ705 standard bases without installation modification in systems upgrading to the new intelligent Excellence series detectors
- Automatic locking to legacy base avoids adapter removal when the new detector is removed
- Supports the Excellence detector base locking option to prevent unauthorised removal of the Excellence series detector
- Standard Excellence series base already integrated
- Hides the legacy base for perfect colour matching to the new Excellence series detector
- Supports Excellence series address tags for neat labeling and device identification
- EN54 approved with the Excellence series detectors

## Intelligent addressable base accessory - Kilsen adapter (White)

### Especificaciones técnicas

#### General

Compatibility	Kilsen KZ705 standard detector base
Connectivity	No wiring changes required

#### Físico

Physical dimensions	115.5 x 36.5 mm (Ø x h)
Peso neto	76 g
Colour	Blanco (RAL 9016)
Mounting type	Montaje sobre base
Material (caja)	PC / ABS

#### Medioambiental

Antivandálico	No
Temperatura de funcionamiento	-10 to +65°C
Temperatura de almacenamiento	-30 to +75°C
Relative humidity	10 to 93% (noncondensing)
Entorno	Interior

#### Regulador

Compliance	CE, REACH, RoHS 3, UKCA, WEEE
Certificación	CE

#### Productos compatibles

Categoría	Referencia	Descripción
Dispositivo de detección	KE-DBA-TAGW	Accesorio base direccionable inteligente - Etiqueta de dirección (blanca)
Dispositivo de detección	KE-DP3020W	Detector de humo óptico dual direccionable inteligente serie Excellence
Dispositivo de detección	KE-DP3021W	Detector de calor/óptico dual direccionable inteligente serie Excellence
Dispositivo de detección	KE-DT3001W-HAB	Detector de calor direccionable inteligente serie Excellence
